

Note: The Waste Management Team handles waste and recycling for both the GRC in Cleveland and Plum Brook facilities in Sandusky, Ohio. To recycle the following items, please complete a Waste Disposal Request (NASA C260a). If you have any questions, please call 3-2124.

Used Oil Recycling

The Waste Management Team collects used motor oil for the facility. The oil is not reconstituted and reused as motor oil. It goes to a reclaimer for use in as fuel in a blast furnace, such as for a steel mill. The reclaimer has a permit and can blend nonhazardous and hazardous oil.

During May, 2003, the Team shipped 5,000 gallons of used oil for recycling.
